Subject: Draft Response Letter

Heather –

I would appreciate a few minutes of your time to discuss this draft response to the Nez Perce Tribe. I think you have seen the letter to which this would respond, but let me know if it would be helpful for me to send that incoming letter along, as well. I am sensitive to the potential ramifications of an “ask” of Ecology on this topic, so I am interested in your thoughts and advice on how this letter can be part of a constructive path forward. One thing that I note that this letter does not do yet is set up a shorter term versus longer term strategy as I have suggested to you as a possible approach to consider. (But it also does not foreclose this option, either.) I look forward to talking soon.
